

# **A FULL FEATURED SYSTEM DESIGNED TO IMPROVE TELLER ACCURACY AND PROVIDE BETTER CUSTOMER SERVICE.**

The Quick Teller terminal is designed to provide flexible, programmable features such as Cash-In/Cash-Out by denomination (including coins), Automatic add-on or discount by flat rate or percentage for fee collection, 4, 8, 16, or 24 departments, Relief Teller operations, IRS reports, Time & Activity reports, full featured calculator with up to ten constant factors, split deposit and many more exclusive features.

## **ITEM BUFFER FEATURE**

The Quick Teller allows you to store up to 3700 entry items in 24 separate registers, with individual settings and printouts for each.

## **ACCOUNT NUMBER**

Capacity of up to 16 digits allows entry of large account numbers such as Mastercard or Visa in one entry. Account number hold also allows recall of account number in any sequence with no restrictions.

## **IRS CASH TRANSACTION**

Allows for setting a high or low amount for IRS Cash Transaction. Report lists suspects (low) and qualifying (high) transactions. Up to eight supervisors or PIN numbers are available.

## **42 DIGIT PRINTER**

More legible and easier to read, with punctuation in both date and time read-outs. Also allows up to three character identification for different departments.

## **TIME & ACTIVITY REPORTS**

Up to 12 time periods that give transaction time, total number of transactions, average transaction time, total transaction.

## **CASH-IN BY DENOMINATION**

Department keys become denomination keys for both Cash-In & Cash-Out transactions, eliminating the need for using an adding machine. Gives complete audit trail of Cash transactions as well as giving zero proof on Split Deposits. This feature can be used for currency, coins & incoming checks.

## **AUTOMATIC ADD-ON, DISCOUNT**

Ability for setting up to 23 different amounts, either percentage or flat rate, for charges on check cashing or official checks. Fee collected is captured and accumulated for print-out at end of day balancing.

## **ADDITIONAL FEATURES**

- Full featured four function calculator with floating decimal.
- Summary of all Cash-In/Cash-Out transactions printed out.
- Stamp function for parking slip or other non-transaction validations
- Memory protection retains all teller totals and programming in case of a power failure.
